

Specially Processed Filter

■ Gull-wing Processing (Product that Supports Surface Mounting)

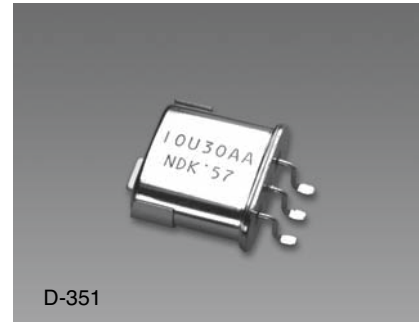

With a metal clamp attached to a conventional lead-mount MCF and lead wires shaped into a gull-wing form, this filter can be used as an MCF that supports surface mounting.

(1) Model supported

NR-18T(3), NR-18T2(3) : (Package type D-359, D-351)

(2) Precautions for use

Coupling between the input and output lead caused by higher frequencies may deteriorate the guaranteed attenuation.

D-351

RoHS Compliant
Directive 2002/95/EC
