

## Radiation Effect on NDK Products

We will announce that there is no effect of radioactive substance caused by Fukushima Dai-ichi nuclear power plant accidents on the products manufactured in NDK production factories and their materials.

1. Our production factories are located outside the 80km distance from Fukushima Dai-ichi nuclear power plant.

i) Distance from Fukushima Dai-ichi nuclear power plant at Futaba in Fukushima to our production factories

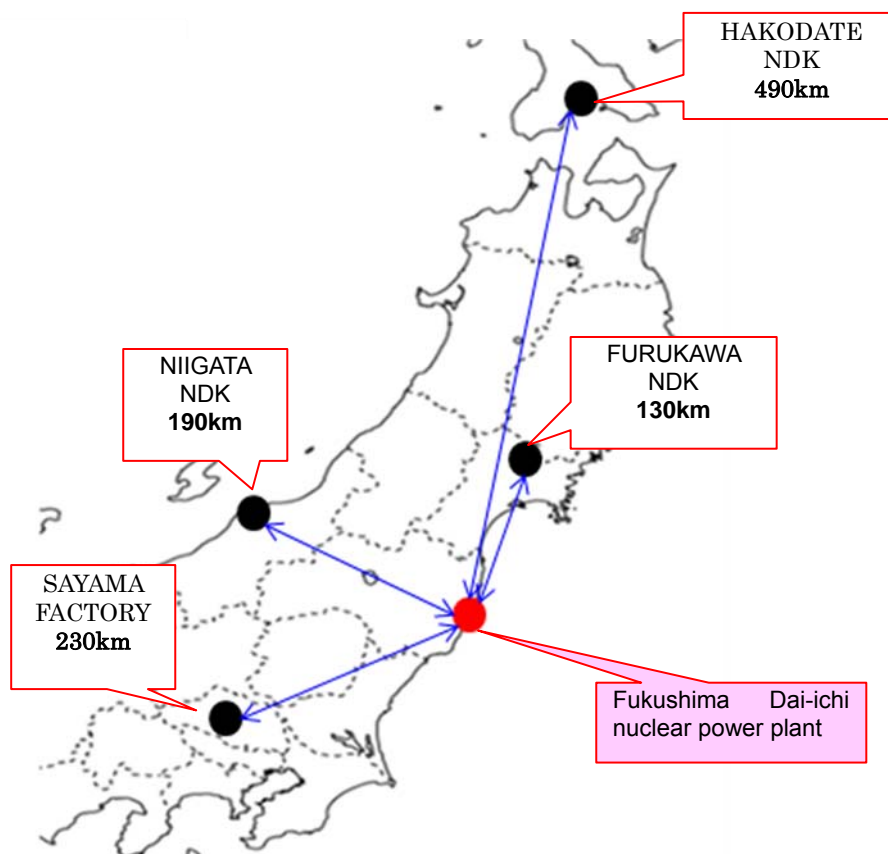

Sayama plant	: 230km	(Kamihirose, Sayama, Saitama)
Hakodate NDK	: 490km	(Suzuranoka-cho, Hakodate, Hokkaido)
Furukawa NDK	: 130km	(Shintakayachi, Sakuranome, Osaki, Miyagi)
Niigata NDK	: 190km	(Kawasaki, Nishikan-ku, Niigata, Niigata)

ii) Amount of radiation posted on the website of Ministry of Education, Culture, Sports, Science and Technology is as below. (as of Jun. 22, 2011).

<Production factory/ Airport (Nearest measurement position)>	<Amount of radiation ( $\mu$ Sv/h)>
Sayama plant (Hachioji, Tokyo)	0.04
Hakodate NDK (Hakodate, Hokkaido)	0.04
Furukawa NDK (Sendai, Miyagi)	0.08
Niigata NDK (Nagaoka, Niigata)	0.04
Narita International Airport (Chiba, Chiba)	0.13
Haneda Airport (Meguro, Tokyo)	0.08

2. Component makers we are dealing with are also located outside the 80km distance from Fukushima Dai-ichi nuclear power plant.
3. Radiation dose measurement at the time of export and import

As to export from Japan, products are inspected in accordance with the provisions of airline companies which manages the flight on which they are loaded on.  
And at importing side, they are treated in accordance with the import regulations in each country.

4. Further responses

We are not planning radiation dose testing instructed by NDK at the moment.

We deal with our products as export cargo following the instructions of government offices of Ministry of Economy, Trade and Industry, IATA (International Air Transport Association), and etc.

Respectfully yours,
